WE THINK THIS LIST IS FUSARIUM FREE STOCK

THIS LIST SUPERSEDES ALL PREVIOUS LISTS October 1, 1951

F. O. B. Auburn, Washington. All orders filled subject to stock on hand. 250 at the thousand rate. Less \$1.00 per M on orders of 25,000. Less \$2.00 per M. on orders of 100,000 or over. Sound, healthy bulbs, thoroughly cured and commercially pure. All stock is fumigated with Methyl-Bromide. Our seedsman's warranty is only for the cost of the bulbs.

TERMS: Cash with order 10% discount-or-25% deposit with order, balance before shipment.

The first shipments are ready to go out December 1st.

WE THINK THIS LIST IS FUSARIUM FREE STOCK

Due to the climate, our soil temperature is not high enough to make Fusarium propagate. We try to take the best care of our stock. It is rogued, watered if necessary, and hand sorted an extra time before shipping. We have found that we do not have fusarium on stock produced from bulblets that we grew here. We can take a stock of bulbs from another district which has fusarium and in three seasons eliminate the infection.

Varieties we have not grown three years are not included in list.

MAGIE WRITES WE GROW FUSARIUM FREE STOCK

Refer to

New Approach Necessary in Controlling Fusarium. Robt. O. Magie. NAGC Bulletin, December 1950, Page 99.

O. R. Roe -- GLADS -- Supplied the Picardy stock for this research from its start.

WE THINK THIS LIST IS FUSARIUM FREE STOCK

Our Picardy has been grown by us since 1937, without addition. We plant on new land each year, that has never before grown gladiolus. Beside being apparently free from fusarium it, too, is practically clear of white break and mild mosaic. This year our bulbs are grown on light soil to eliminate dry rot. (This is our best control). Our Corona has been on our place since 1942.

Our Picardy and Corona stocks are about equal in size. Together they comprise more than one-fourth of our 1951 acreage.

This year we list Leading Lady, Red Charm, and Spotlight (somewhat mixed with Stoplight, next year we drop Stoplight so it won't happen again.) These have shown no fusarium this year.

WE THINK THIS LIST IS FUSARIUM FREE STOCK

Let a trial demonstrate the difference
on your farm
in yields from fusarium free stock.
